

Sesame and Soy Sauce Cucumber Salad

Ingredients

- ☐ 1 Cucumber
- ☐ 1/2 tsp salt
- ☐ 1/2 tbsp sesame oil
- ☐ 3/4 tbsp light soy sauce
- ☐ 1 tbsp sugar
- ☐ 3/4 tbsp rice vinegar or apple cider vinegar
- ☐ 1 tbsp chili oil (optional)
- ☐ 1/2 tbsp sesame seeds

Directions

- Rinse and slice one end of the cucumber at an angle.
- Continue slicing at an angle. Slices should look more oval than round. Thickness should be up to preference.
- Add to a bowl/container and sprinkle 1/2 tsp of salt.
- Mix that well and refrigerate for at least 20 minutes to draw out the water.
- Drain the water and give the cucumbers a quick 10 seconds rinse before returning back to the bowl/container.
- Add sesame oil, light soy sauce, sugar, rice vinegar, chili oil and sesame seeds.
- Stir until well combined and serve. Enjoy!

Mic's Notes

First time I eyeballed half the recipe on half a cucumber. No chili oil either and was still very good. I sweated the cucumbers which seemed to add some flavor and *maybe* help with crispness but I'm not sure

I would recommend for flavor's sake to add chili oil, and as much as you are comfortable heat wise. I don't tend to sweat the cucumber slices most of the time because I'm lazy but I've found I'm never disappointed even with it just thrown together at the last minute.
